

AEROPAC IE smart wall-mounted ventilator

More information:

[AEROPAC product page](#)

AEROPAC IE smart

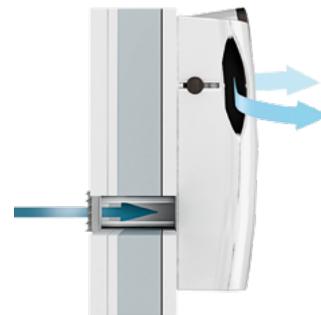

- Active sound-absorbing ventilator with CO₂ regulation: detects spent or bad air automatically and adapts the air exchange accordingly
- Professional supply of fresh air with perfect sound absorption of up to 58 dB
- Extremely quiet operation ensures restful sleep
- Option to use a coarse dust filter, fine dust filter or pollen filter
- Operated using the SIEGENIA Comfort app

Installation benefits

- Quick installation in the outside wall with an 80-mm core drill
- Can also be installed on the jamb wall
- Alternative installation with EPP vent duct, for example for composite thermal insulation systems

Technical specifications

- Dimensions, H x L x D: 467 mm x 270 x 132 mm
- Air throughput as active vent with blower: up to 160 m³/h
- Sound absorption D_{n,e,w}: up to 58 dB
- Inherent noise: 20 dB(A) at 60 m³/h
