

Study: Aluminium Sliding Door PORTAL ECO SLIDE CO for ALU 20 groove

ECO SLIDE CO

- Choice of Standard or Design hardware
- Optional: Frame parts in black or in the colours white or light grey/silver
- Zero-maintenance bogie wheels without visible lubrication
- Optional SOFT STOP: Gently brakes the sash before it reaches the end position

Production benefits

- For sash weights up to 250 kg
- With new ALU XT central locking gear: only a few additional components required
- Lean warehousing, efficient processes
- Small number of components for quick and easy assembly, simple hardware adjustments

EPD*:
