

## TITAN for 16 mm aluminium windows, basic security and TITAN axxent 180° hinge side

### TITAN axxent 180° hinge side

- Gaining space thanks to 180° opening of the sash with flush-mount installation of the windows without reveal, as well as facade elements and generally in combinations with fixed glazing
- Perfect window design thanks to completely concealed pivots, load transfer up to 80 kg, narrow profile frame width and maximum glass surface as a result
- Consistently high ease of use due to easy readjustment
- Wear-resistant and durable construction: Tested with 180° opening angle in accordance with new certification programme QM 328
- Effective sealing of the bearing points thanks to continuous seal and integrated pressure adjustment in the stay

### Production benefits

- For all conventional profile systems made of PVC and ALU16 with 13 mm groove axis
- Can be seamlessly integrated into the production thanks to familiar fabrication
- Sash is easy to fit in the slightly opened turn or tilt position
- Easy-to-access 3D adjustability: continuous pressure adjustment on the top and bottom pivot for optimal sealing
