

TITAN for comfort windows, basic security, TITAN hinge side and concealed turning lock

TITAN PVC hinge side

- For turn-only and turn-and-tilt windows
- Sleek and modern design: flush with the rebate at the top and bottom, all screws concealed, caps and coating possible

Production benefits

- Optimised stay hinge: now even quicker and intuitive to couple
- Optimised bottom hinge for faster production processes and convenient installation of the sash
- Identical drilling and screwing specifications for the bearings in all weight classes up to 150 kg

Comfort window version

- Force-controlled stay enables the hand lever position on the sash to be horizontal at the bottom
- Tilting and closing of the sash almost as if by itself without pressing by hand
- Opening width of 90–100 mm
- Easy to operate without any effort – even with windows that are difficult to reach

TITAN turning lock

- When locked, the window cannot be opened in the turning position
- Can be used with standard striker 56
- Can be locked by special key
